

## Red River Energy, LLC

---

The current environment for energy management companies like **Red River Energy, LLC** provides land holding companies strategic planning to maximize land use yield and mineral recovery.

## Drill Drill Drill

---

### Overview

Oil and gas are valuable commodities. Their presence beneath your land could mean extra income if you choose to grant a lease to an exploration company. **Red River Energy, LLC** will partner with you to explore potential reserves of gas. Our goal is to participate along side our land owner partners in properties that make sound risk/reward sense.

### Leasing Partnership

A lease is an agreement between an owner of land and an exploration company by which the company is given the right to explore for oil and gas. If those efforts are successful, the parties share in the proceeds.

### How it Works

- Title Search
- Seismic Studies
- Data Computations
- Prospecting
- Raise Funding
- Geologic Evaluation
- Remote Sensing
- Analysis
- Development of Housing
- Investor Driven
